

JUNE 2018

Good Morning

Normally in June we are getting supply of most English produce, but with the late Winter from the East! Plus all the Spring rain, things are going to be 4/5 weeks late. We finish with English carrots in the first week of June and switch to Israel for about 3 to 4 weeks, last year we went straight onto the new English crop but salad items are now coming on stream, Dutch tomatoes, cucumbers, English spring onions, leeks, cauliflower, summer cabbage ect. Lots of different fruits plus early new potatoes from Lincolnshire, Cornwall, still some good swede from Scotland, but the parsnip season is just about over, English Strawberries, Raspberries, Blackberries and the English Iceberg is very good. So as usual with the produce industry its swings and roundabouts. English broccoli is looking very good. If we get some warm days with the odd shower, then by the time June is over I think we should be back to normal.

“Don’t waste your time trying to get people to love you, spend your time with people who already do”.

Kind Regards
