

**NOVEMBER 2018**

**Good Morning**

Well the thoughts of previous months i.e produce price rising are coming true, we are paying 20% plus more than last year for potatoes and all root crops, it's the same in Europe especially Holland we buy tonnes of potato products from the Dutch Celavita potatoes and Aviko par fried chips, we know its going to be tight on price but we will not know the true extent until the Spring, that said the fruit industry changes every day, we can only do our best with the buying, we are in a strong position because we have long established connections with our suppliers and we pay in advance in many cases so I am not worried about supply. That's enough of the doom and gloom! Bonfire night – chestnuts, Toffee Apples, pumpkins, that's what November is about. The first sprouts are very good and Autumn cauli still good, we still have good English Broccoli and the Dutch Strawberries are fantastic. We are in the process of having a super computer system installed which will keep us on top of our game in the IT game. Just a little mention we supply with all different goods 8 of our main competitors which shows that our buying power works! Of course you our loyal customers get our best attention as always.

*"my wife said I never listen to her, or something like that"*

Kind Regards

John Plant MBE

Managing Director
