

NOVEMBER 2021

Good Morning

We are working in very difficult times, wage rises, fuel up 25% in 12 months, vans costing 18% more than 12 months ago, our suppliers wanting more money. Even the 12 bottles of gas we use per week up by 15% from November so these are all extra costs to absorb, we will try and be as competitive as we can we expect to pay more for our produce but we will absorb the extra costs as much as possible. I have noticed as I expect is the case with yourselves that prices have increased all over supermarkets, Costco, Bookers etc. there is one particular cheese that I buy which has gone up £1.60 from May this year and I think we have got used to price increases whatever we are buying. Right enough bad reports we have bonfire night coming up lots of chestnuts, toffee apples, mulled wine so not all bad news, and halfway through the month Xmas dinners start in the catering trade which means extra business for all. Lots of produce available nothing short and as long as the frost keeps away good local cauliflower and broccoli grown 3 miles away from my office. This last 18 months as tested everybody but a few hiccups will not deter GW Price Ltd from giving you the best quality, service and price available.

“When your passion and purpose are greater than your fears and excuses, you will find a way”.

Kind Regards

John Plant JP, MBE Chairman
