

CARBON REDUCTION PLAN

GW PRICE LTD

Publication Date :12.03.2026

COMMITMENT TO ACHIEVING NET ZERO BY 2050

Baseline Emissions Footprint

Baseline emissions are a record of the green house gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions are the reference point against which emissions reduction can be measured.

Baseline Year 2023	
Additional Details relating to the Baseline Emissions calculations	
2023 is GW Price Ltd first year of reporting carbon dioxide emissions making this our baseline year. Figures captured represent GW Price total Scope 1 & 2 Emissions as defined by the Green House Gas protocol (http://ghgprotocol.org) The Scope 3 figures were calculated as per the technical guidance for calculating Scope 3 Emissions, also published by greenhouse gas protocol.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO ₂ e)

Scope 1	10,120
Scope 2	432.00
Scope 3 (Included Sources)	Fuel and energy related activities 2,400 Distribution 10,120 Business Travel 90 Employee Commute 200
Total Emissions	12,810

CURRENT EMISSIONS REPORTING

Reporting Year: 2025	
EMISSIONS	TOTAL (tCO2e)
Scope1	11,251
Scope2	329,00
Scope3 (included Sources)	Fuel and energy related activities 2,200 Distribution 9,100 Business Travel 90 Employee Commute 180
Total Emissions	11,580

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 8,850 tCO₂e by 2030 which is a reduction of 40%. Following this we are committed to reaching Net zero by 2050.

Carbon Reduction Projects

Prior to our baseline year, we have already begun the transition by slowly moving our fork truck to electric, also trialling electric vehicles for the shorter logistic runs. Company cars are hybrids. We are working to identify areas of the business where high waste of materials take place, we recycle waste produce into animal feed, cardboard is all recycled. Staff are car sharing, bike to work schemes in place. Office staff doing one day work from home on trial. Tracking devices on vehicles to shorten runs.

Declaration and Sign Off

This carbon reduction plan has been completed in accordance with PPN 06/21 and associated guidance and reporting stand for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting⁵.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction plans and the Corporate Value Chain (Scope3) Standard⁶.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier

D Willoughby
