

OCTOBER 2026

Good Morning

Autumn is now here and supplies are getting back to normal, large Jacket potatoes will be short this winter due to lack of rain, Spanish tomatoes are slowly getting back to normal but as I write this temperatures are still hitting 35 degrees plus with the cost of fuel and energy and fertilizer prices will never be the cheap again. Also with rising wages and taxes it is going to be hard but we will absorb as much of the extra costs as we possibly can. So enough of the doom and gloom this month we welcome sprouts back and chestnuts, pickling onions, English corn on the cob, cob nuts, English plums, damsons, Brazilian melons, pomegranates, English tender stem broccoli is very good, butternut squash etc. so lots to look forward to and less than 3 months to Xmas.

"We live in a time where intelligent people are being silenced so that stupid people won't be offended".

Kind Regards

John Plant JP, MBE, Chairman
